

DCNM-CB250-I System installation cable 250m

DICENTIS

- ▶ Creation of custom length network cables
- ▶ Low smoke zero halogen to comply with safety and environmental standards

The System Installation Cable is used for creating custom length system installation cables. The system installation cable can be used to make cables with a maximum length of 100 m (328 ft) by terminating with the connectors for solid core cables (DCNM-CBCON-I) using the system cable toolkit (DCNM-CBTK). The cables are solid core which provides better performance for cable lengths over 5 meter.
